Address: Bahria University Karachi campus, 75350 Karachi (Pakistan)

Bachelors in Software Engineering
Bahria University, Islamabad campus [11/09/2019 – 20/07/2023]

Address: Bahria University H-11 Campus, Islamabad, 04408 Islamabad (Pakistan)

FSC - Pre Engineering
Bahria College, Karachi [01/07/2017 – 30/06/2019]

Address: Bahria College NORE-1 MT Khan Road Karachi, 75350 Karachi (Pakistan)

Matric
Bahria College, Islamabad [01/04/2015 – 30/03/2017]

Address: Bahria College Sector E-8 Naval Complex, Islamabad, 04408 Islamabad (Pakistan)

WORK EXPERIENCE

.Net Developer Intern
[24/07/2024 – 07/09/2024]

Address: Bahria Town Karachi,

As a .NET Developer Intern, I gained hands-on experience in both front-end and back-end development using ASP.NET Core, Web Forms, MVC, and Web API. I assisted in building and maintaining web applications, including API integrations with React for seamless front-end functionality. My responsibilities included creating dynamic and responsive user interfaces, implementing business logic, optimizing database queries, and ensuring high-performance APIs. I also contributed to testing, debugging, and troubleshooting, while collaborating with senior developers to ensure successful project delivery.

Web Developer
[11/01/2023 – 10/01/2024]

Address: Lex-Fora, G-9/1, 04408 Islamabad

As a Web Developer, I specialized in creating and maintaining WordPress-based websites, handling both front-end and back-end development. My responsibilities included customizing themes, developing and integrating plugins,

optimizing website performance, and ensuring responsive design across devices. I worked closely with clients to meet their requirements, improved SEO performance, and provided ongoing support for troubleshooting and updates. Additionally, I utilized HTML, CSS, PHP, JavaScript, and MySQL to deliver high-quality, user-friendly websites.

WordPress Developer Intern

[01/08/2023 – 30/11/2023]

Address: Bahria Incubation Centre - Bahria University, Islamabad

As a WordPress Developer Intern, I assisted in the design, development, and maintenance of WordPress websites. My tasks included customizing themes, implementing plugins, and optimizing website performance. I collaborated with the team to ensure responsive design, SEO best practices, and smooth user experiences. Additionally, I gained experience with HTML, CSS, PHP, and WordPress backend management, while contributing to content updates and troubleshooting technical issues.

Android Developer Intern

[25/08/2022 – 26/09/2022]

Address: CARE Sector-I9, Islamabad, 04408 Islamabad (Pakistan)

As an Android Developer Intern, I contributed to the development and enhancement of mobile applications. I collaborated with the development team to implement new features and optimize app performance. My responsibilities included writing clean and efficient code in Java conducting thorough testing, and assisting with UI/ UX design improvements. I gained hands-on experience with Android Studio, version control using Git while actively staying updated with the latest mobile development trends.

CERTIFICATIONS

[13/05/2024 – 18/05/2024]
Introduction to Front End Development

I have completed my certification on Front End Development covering in detail all the languages and frameworks.

Link: https://lms.simplilearn.com/

[05/01/2025 – 12/01/2025]
Introduction to ASP .NET Core

I have completed my certification on ASP .NET core covering in detail the frameworks for building, modern, scalabale and high performance web applications.

Link: http://olympus.mygreatlearning.com/courses/104948/pages/introduction-and-agenda-asp-net-core?module_item_id=5082201&pb_id=581

CONFERENCES, VOLUNTEERING AND SOCIAL ACTIVITIES

[11/10/2019 – 11/10/2019]
Workshop 3.0 on Basics of Robotics and Drones

Game of codes 2022

[13/02/2021 – 15/02/2021]
9th Interntional Mritime Conference 2021 (IMC-21)

BSEAS Open House 2023

TECHNICAL SKILLS

Object-Oriented Programming

HTML, CSS, JS

WordPress

React JS

ASP.NET Core Web Forms

ASP.NET MVC

Web API (RestFul Api)

Git and GitHub

SQL Server

PROJECTS

Tic Tac Toe
Developed a console-based Tic Tac Toe game using Java, implementing game logic, user interface, and player interactions.

Quiz Application
Created a quiz application with a C# back-end and a front-end interface using HTML, CSS, and JavaScript, enabling users to take quizzes and track scores.

Snake Game
Developed a classic Snake Game using Java, focusing on game logic, user input handling, and visual rendering.

Junky junk
Developed a food ordering platform as a desktop application using C# with a SQL Server backend, enabling users to browse menus, place orders, and manage their food preferences. The application allowed seamless order processing and order tracking.

Event management system
Developed an event management system with a responsive front-end using React, HTML, and CSS, streamlining event creation and registration processes.

Food ordering app
Developed a food ordering app with Java in Android Studio, enabling users to browse menus, place orders, and track deliveries.

Handwritten digit recognition
Developed a machine learning model for handwritten digit recognition, utilizing AI algorithms to classify digits from image inputs.

trAIon(Virtual try on) - FYP
Designed and Developed a Virtual Try-On platform for fashion, allowing users to try on clothes virtually and visualize how they would fit, as part of my final-year project.

LexFora
Developed the LexFora website using WordPress, creating a professional online presence for a legal services platform.
lexfora.net

CreativeMediaLink
Designed and developed the CreativeMediaLink website using WordPress, focusing on user-friendly navigation and design.
creativemedialink.com

Woocommerce Plugin - Fetching, Retrieving and Spinning of content
Developed a custom WooCommerce plugin for content fetching, retrieving, and spinning, enhancing e-commerce website functionality.

School Management System
Developed a School Management System using ASP.NET Web Forms with SQL Server back-end, implementing CRUD operations for managing student and faculty data.

Leave Management System
Created a Leave Management System with ASP.NET MVC and SQL Server, allowing employees to submit leave requests, with CRUD operations for leave management.

POS - Point of Sale
Integrated a Point of Sale system with RESTful Web API for real-time data interaction, using React for the front-end interface and enhancing transaction handling.
