

FIZZAH MUKHTAR MIRZA

Software Engineer | ASP.NET Core | .NET | Flutter | Full Stack Developer | Founder @ SilverStreakIT

Karachi, Pakistan | fizzahmm123@gmail.com | 0332-6349924 | [linkedin.com/in/engr-fizzah](https://www.linkedin.com/in/engr-fizzah) | github.com/fizzah-mukhtar | fizzah-mukhtar.github.io/Portfolio | <https://www.silverstreakit.com>

PROFESSIONAL SUMMARY

Results-driven Software Engineer with a Master's degree in Software Engineering (CGPA: 3.67/4.00, Cum Laude) and hands-on experience in full-stack web and mobile application development using ASP.NET Core, .NET, Flutter, SQL Server, and REST APIs. Founder of SilverStreakIT, a software startup delivering web and mobile solutions, and completed 50+ freelance academic Computer Science software projects. Skilled in designing scalable backend systems, relational databases, enterprise management systems, and AI/computer-vision applications. Seeking remote Software Engineer opportunities to build high-quality software products.

TECHNICAL SKILLS

Languages: C#, Java, Python, JavaScript, SQL, HTML5, CSS3

Backend & APIs: ASP.NET Core, ASP.NET MVC, ASP.NET Web Forms, REST APIs, Entity Framework Core, ADO.NET, LINQ, Authentication & Authorization

Mobile: Flutter, Riverpod, Responsive UI, State Management

Databases: SQL Server, MySQL, Database Design, Stored Procedures, Normalization

Frontend & CMS: Bootstrap, JavaScript, React (Basic), WordPress, Elementor, WooCommerce

AI / Machine Learning: Machine Learning, Deep Learning, Computer Vision, CNN, OpenCV, TensorFlow (Academic)

Tools: Git, GitHub, Visual Studio, VS Code, Android Studio, SQL Server Management Studio, Postman, Figma (Basic)

SOFT SKILLS

Problem Solving	Analytical Thinking	Communication	Leadership	Time Management
Critical Thinking	Team Collaboration	Adaptability	Continuous Learning	

PROFESSIONAL EXPERIENCE

Founder & Software Engineer | SilverStreakIT 2025 – Present

- Founded and manage a software startup focused on custom web and mobile application development. • Design and develop scalable software solutions using ASP.NET Core, Flutter, SQL Server, and REST APIs.
- Gather client requirements and translate business needs into technical solutions.

- Develop secure backend APIs and relational database architectures; manage deployment, maintenance, and documentation.

Freelance Academic Software Developer | Self-Employed 2023 – 2024

- Completed 50+ Computer Science academic software projects covering programming, databases, and web development.
- Developed educational applications using C#, Java, ASP.NET, SQL Server, Flutter, HTML, CSS, and JavaScript.
- Delivered projects on deadline while maintaining code quality and clear documentation.

.NET Developer Intern | Bahria Town, Karachi Jul 2024 – Sep 2024

- Gained hands-on experience in front-end and back-end development using ASP.NET Core, Web Forms, MVC, and Web API.
- Assisted in building and maintaining web applications, including API integrations with React.
- Created dynamic, responsive UIs, implemented business logic, and optimized database queries for high-performance APIs.
- Contributed to testing, debugging, and troubleshooting while collaborating with senior developers on project delivery.

Web Developer | Lex-Fora, Islamabad Jan 2023 – Present

- Created and maintained WordPress-based websites, handling both front-end and back-end development.
- Customized themes, developed and integrated plugins, and optimized site performance and responsiveness.
- Worked closely with clients to gather requirements, improve SEO, and provide ongoing support and troubleshooting.

WordPress Developer Intern | Bahria Incubation Centre, Bahria University, Islamabad Aug 2023 – Nov 2023

- Assisted in the design, development, and maintenance of WordPress websites, including theme customization and plugin implementation.
- Collaborated with the team on responsive design, SEO best practices, and smooth user experiences using HTML, CSS, and PHP.

Android Developer Intern | CARE, Islamabad Aug 2022 – Sep 2022

- Contributed to the development and enhancement of mobile applications, implementing new features and optimizing performance.

PROJECTS

SplitSync — Expense-Sharing App (SilverStreakIT) — Flutter (Riverpod, GoRouter), .NET 8 REST API, SQL Server

- Full-stack mobile app for shared expense management with real-time friend/group management.
- Implemented equal, unequal, and percentage-based bill splitting with smart debt settlement.

School Management System — ASP.NET Web Forms, SQL Server

- Built a system with CRUD operations for managing student and faculty data across admissions, attendance, and records.

Complaint Tracking System — .NET Core, Entity Framework, SQL Server

- Developed role-based access (User/Admin/Technician) with CRUD operations and automated complaint assignment workflow.

Leave Management System — *ASP.NET MVC, SQL Server*

- Enabled employees to submit and manage leave requests with full CRUD functionality.

POS — Point of Sale System — *RESTful Web API, React*

- Integrated real-time data interaction for transaction handling via a React front end.

Client Websites — LexFora & CreativeMediaLink — *WordPress*

- Designed and developed professional WordPress websites for a legal services platform and a media company, focused on user-friendly navigation and performance.

AI Projects — trAlon (FYP) & Handwritten Digit Recognition — *Computer Vision, Machine Learning*

- Designed a virtual try-on platform for fashion using computer vision, and a machine learning model for digit classification from image inputs.

EDUCATION

Master of Science in Software Engineering — **CGPA: 3.67/4.00, Cum Laude**

Bahria University, Karachi Campus | Sep 2023 – Jun 2025

Bachelor of Software Engineering — **CGPA: 3.26/4.00**

Bahria University, Islamabad Campus | Sep 2019 – Jul 2023

CERTIFICATIONS

- Introduction to Front End Development — Simplilearn (May 2024) •
Introduction to ASP.NET Core — Great Learning (Jan 2025)
